Thanks. What else can i do? Here's what's happening: .

A: I think this is your encrypted version of your cracked version. This is what's happening: The encryption of this file is: \$ chiffrement chiffrement OK OK Obtenez le mot de passe sur le serveur à partir de l'archive? . Obtenez le mot de passe sur le serveur à partir de l'archive? means: Obtain the password from the server from the archive. And that code is never found in your archive. So what the hell is this is it means? It means that the right password of your archive is None. Thus, this is a fake archive password. Have fun cracking it. Note: From the fact that this is a valid archive, this means that you have used a right archive password. You have not. Q: Can't get JScrollPane working inside JPanel I'm trying to create a simple program that will take a text file in java and display it using JTextArea. I will then take a second file

---

and display the results of the first file on top of the second file using JScrollPane. As of now, it only displays the text files in a new window. I can't for the life of me get JScrollPane to work properly. This is the code I'm using:

```
import javax.swing.*; import java.io.*;
class MyClass{ public static void main(String []args){
    JFileChooser filech = new JFileChooser();
    filech.setCurrentDirectory(new
java.io.File("/Users/Username/Desktop")); filech.setFile
SelectionMode(JFileChooser.FILES_AND_DIRECTORIES);
    filech.showOpenDialog(null); File inputFile =
    filech.getSelectedFile(); JTextArea text1 = new
JTextArea(10,30); JScrollPane textareaScroll = new
    JScrollPane(text1); JPanel textDisplay = new
    JPanel(new FlowLayout(FlowLayout.CENTER));
```
