Q: Index vector values and apply operation in current vector I want to apply a function on a vector with respect to certain values in the vector. My code below does not work as expected.

```
import numpy as np
import itertools
# create an example data frame
data = np.array([np.arange(20), np.arange(20, 0, -1)]).T
data.shape = ()
def myfun(v):
    if v.lstrip().startswith('1'):
        v = v[4:]
    return v
c = list(map(np.array, itertools.product(range(2), range(2), range(2), range(2), range(2))))
d = [np.array(next(row).tolist()).reshape(-1,1) for row in c]
# I want to apply the function myfun on the current # element of d with respect to the value in vector v # this seems not to work
d[0].apply(lambda x: myfun(x)[4])
Expected output: array([9, 10])
```

A: Give this a shot:

```
import numpy as np
import itertools
# create an example data frame
data = np.array([np.arange(20), np.arange(20, 0
```

Elden Ring Features Key:

An Original Multilayered Story The most difficult part of developing a new game is developing the story. We have used the “Thousand Languages” method to express our vision of "a myth within legends, a tragedy in a tragic fairy tale", where you discover the motives and desires behind the motives. All the various characters, situations, and quests that the story contains are all “Unique Stories” that have not been seen before, so the tangled webs cast a deep and profound mystery.

A Variety of Possibilities As a player story, the game also offers a variety of different quests at different levels. As you complete them, you can enjoy a fun and exciting gameplay experience.

Battle, Unique Play Style, Conquered Self Battle, Unique Play Style, Conquered Self. Collect and absorb the power of the ring, equip your own Unique Style, and fight in an original set of game play styles.

We at Gust have been toiling on a highly ambitious game and we hope you will enjoy the game.

Please look forward to more details. Thank you,

Bluehole

Elden Ring Crack +

An early version of this review first appeared on www.gamekazoo.com on March 18, 2018. Overview Elder Scrolls Online and The Elder Scrolls Legends were my first RPG games. They are still memorable due to the fact that I can play them at home on a computer or mobile device (if I have the latter, that is). A couple of years ago, I passed through a phase where I was extremely interested in fantasy themed games and RPGs. I played several titles that I enjoyed. One of them, Elder Scrolls Online, was also fun to play. Another one I liked a lot, The Elder Scrolls Legends, became my favorite card game. The third game, Elder Scrolls VI, which will be released on June 26, 2026, (it will then turn 20 years old) is another such game that I can get excited about. Because the game is still a long way away, I was not really expecting to play it before June 26, 2026, even if I can still play it today if I want. But Elder Scrolls VI is just one of the many interesting things coming up in the next couple of years. One of these other things is RIDGE, which released in Japan in 2018. But I have now played the game, which is actually quite fun. System Requirements One of the important rules in the market is that a game that has a very high system requirement is considered to be incompatible for mobile devices. However, I don't find that rule to be very sound in this case. By the way, some mobile devices may be able to play the game and even run it on a good level, but I recommend that you check the hardware requirements on the developer's website before buying it. The reason I think that having a very high system requirement is considered bad is because a game is unnecessarily not available to more people, and because it looks like there is a big barrier for anyone who doesn't have a very high-end device. For RIDGE, we have just met the requirement. That is why I bought the game and why I am able to complete the tutorial. Not only that, but the game is fun in most cases (even with only one life). The first thing I want to show you in the video below is the opening of the game. I personally think that the opening is very enjoyable. I am amazed that a game based on a series that bff6bb2d33

Rise of Tarnished, one of the new fantasy action RPG titles just released by BOWN OUT CO., LTD., is the sequel to Tarnished, and is available for sale on October 24th! The game features a vast world full of exciting content, a living world divided into three maps, a fantasy world featuring multiple worlds and characters, and an epic storyline! Tarnished is still standing!

In Rise of Tarnished, you will be able to build a great party and adventure in a world full of exciting and beautiful characters that are stronger and and more versatile than before! With this game, you will be able to express your own play style and enjoy your own epic romantic drama! It would be nice if you could start experiencing your own, unique epic romantic drama!

GAME SYSTEM

Rise of Tarnished adopts the Character Creation System introduced in the original Tarnished, and combines it with the Fantasy Action System. By combining these two systems, the game uses statistics that are comparable to fantasy sports-themed games, and has a Fantasy Action System where destroying enemies will cause your character to grow in power! Basically, there are four classes that are formed using action points (AP), skills that are acquired by various means, and attributes that determine a character's strength. This time, the processing power is higher, making you able to carry out extremely powerful actions!

By combining the action system, there are skill types that cannot be chosen through the normal process, and battle logic. Because these elements make it possible to enjoy a more immediate and cooperative arcade-type environment in which you are able to fully realize your own strategy, any system that might be unfamiliar to the player can be learned without any special effort on the player's part.

Additionally, because there are many different possible combinations of character specifications, players are able to build a

character based on their preferences! Thus, Rise of Tarnished is a new fantasy action RPG that offers a huge breadth of possibilities!

Furthermore, when monsters are killed, a color is assigned to the surrounding area. This color is then reflected in the Paladin, Thief, and Sorceress' special effects, allowing you to distinguish the enemy's location. It's up to the player how they
