TerrorMania-CODEX ISO release: codex-  
rage.2.terrormaniamania.iso (39.2 GB) Game Version :  
v1.09. Rise of the Ghosts DLC .Nishikicho has  
fallen for 1,000,000 yen a day! His entire stash  
has been stolen, and with no one to help him  
start a new one, he decides to try his luck at  
being a face! In the DMM mall, there is a store  
that you can get custom face patterns drawn on  
paper, and they are all not one million yen, but  
10,000 yen for a minute! The only thing you will  
need is your face, and Nishikicho is ready to try  
it out! The EU doesn't want to "be the border  
guard". A couple of years ago, one of my friends,  
a European government director, told me that  
since the EU is a "white and Christian"  
community, it is used to dealing with "ethno-  
cultural related problems". Whatever that

means. I have not asked many people about the issue since, but here we are today, and that didn't take long. The EU could take action under the TFEU and change its Asylum rules. After all, Parliament doesn't get to decide about the rules, the Community does, it's as simple as that. But even if it did, the new rules would not make them different from the ones they are now. So EU countries would have to adhere to them, because they are not identical. But why do we have rules that are essentially the same for all EU countries if we aren't keeping the borders "secure"? Let me tell you. There are "huge" economic incentives for letting the economic development of the whole EU go to hell. Everyone gets to enjoy the benefits of a devalued currency, from the EU as a whole, to the poorer EU countries
